

REACH into the Classroom

REACH Museum Educators bring science and history to life, right in your classroom. Programs are fun, interactive, and correlated to academic standards.

Choose from the list of classroom programs below, or work with our educators to meet your class' specific needs.

\$90 per 1 hour program for 1 class (up to 30 students)

\$120 per hour for 2 classes at the same time

or \$60 per class for multiple consecutive hours.

Schools outside of the Tri-Cities area of Richland, Kennewick, Pasco, and West Richland may be charged for additional mileage and travel time.

• **Reading the Rocks** Rocks reveal stories about the land

• **Fossils & Floods** From ancient marine life to Pleistocene beasts and ice age floods

• **Soil** Volcanic minerals and flood sediments grow food and wine

• **Plants** Desert diversity and adaptations

• **Animals** Pelts and skulls, food web relationships

• **Pioneers of the Atom** Physics, Atomic age artifacts, WW2 and The Cold War

• **Lewis & Clark on the Columbia Journals** show how the river has changed throughout history

• **Life in the River** Fish diversity and adaptations

• **River Dynamics** Watershed, land use, erosion and change
