

Coyotes

True or False

1. Coyotes hunt alone

True

False

2. Coyotes only live in deserts

True

False

3. Coyotes howl at the moon

True

False

4. Coyotes are smaller than wolves

True

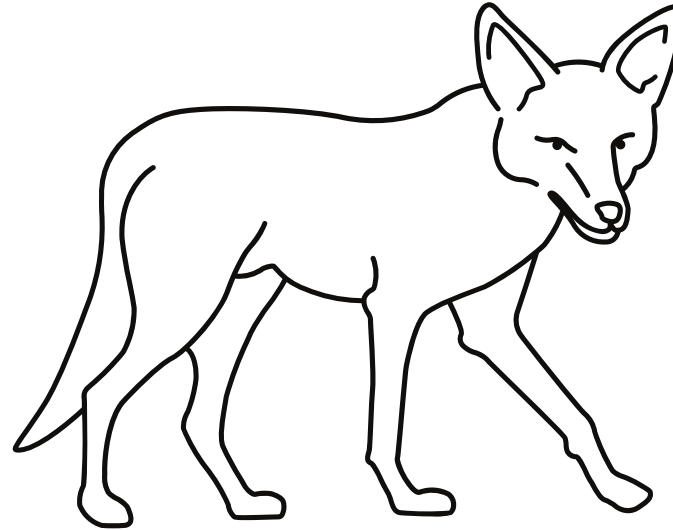

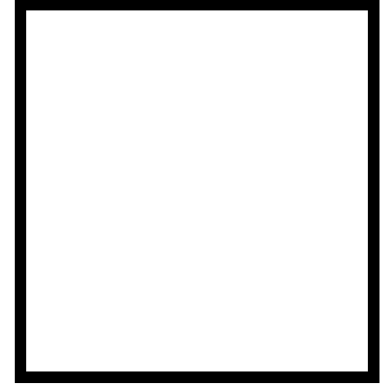

False

4. Coyotes are smaller than wolves

True

False

This is the size and shape of a coyote's front paw. Draw the other front paw next to this one!

The colors in a coyote's fur help it blend into our shrub-steppe habitat. Color in this coyote using colors similar to the ones above.

Answers:
 1. True! While coyotes live in family packs, they hunt alone or in pairs.
 2. False! Coyotes thrive in many environments including deserts, grasslands, and even cities!
 3. False! Coyotes howl to communicate their locations to each other while they hunt at night.
 4. True! Wolves can get more than 3 times as big as coyotes.
 5. True! While coyotes like to eat rodents the best, they also eat all kinds of fruit and if they get a chance, they'll even scavenge through your garden and garbage!
